

June 18, 2020

Hello Tammy and Sean,

I inspected the work and it looks great out there! Not only were the specifications followed, but the areas of property treated look beautiful. The trees chosen for retention were well selected with overall good structure and health. A neighbor came up to me while I was beginning my inspection and he wanted to extend a "Thank You" to Grayback for preserving some of the flowers near a tree he and his wife often look at from across Camp Joy Road. It is obvious your crew and organization care about the properties you work on.

Thank you,

Tony Mecum
